

Getting Organised

Aims

1. To explore what organisation can do to help studying
2. To decide how to get organised

What is an organised person like?

Discuss with your partner
before the teacher gathers
ideas on the board

Extension: What job might they be
good at and why?

Each one of you will have something that you are great at organising. What is your strength?

You have 60 seconds to think before we share

How can you be organised at school?

Make a list working in a small group

Write down 20 things you could do that could help
you stay organised at school

Extension: For the top three suggest why this might help

Postcard promise:

On a small piece of paper write 60 words about what you would like to try this year.

Make a promise to yourself that your form tutor can stick up on the wall

To me:

On 19.09.16

Signed
