	<p><b><i>Life 3.0: Being human in the age of Artificial Intelligence</i></b> Max Tegmark</p> <p>AI is the future - but what will that future look like? Will superhuman intelligence be our slave, or become our god?</p> <p>Taking us to the heart of the latest thinking about AI, Max Tegmark, the MIT professor whose work has helped mainstream research on how to keep AI beneficial, separates myths from reality, utopias from dystopias, to explore the next phase of our existence.</p> <p>Shelf mark: Generalities: Artificial Intelligence <b>006.3</b></p>
	<p><b><i>The Industries of the Future</i></b> Alec Ross</p> <p>This book answers the question: 'What's next?' The Internet had a world-changing impact on businesses and the global community over the twenty years from 1994 to 2014.</p> <p>Blending storytelling and economic analysis, Ross answers questions on how we will need to adapt. He gives readers a vivid and informed perspective on how sweeping global trends are affecting the ways we live, now and tomorrow.</p> <p>Shelf mark: Generalities: Economics: Industries <b>338.064</b></p>
